

505

designed by Luca Meda

Great design flexibility and avant-garde technical solutions for the doors, drawers and removable trays make this a complete and versatile programme. The system is further distinguished by the Core Unit, an open storage unit equipped to contain TV, video-recorder and hi-fi system. All Core Units have a large drawer fitted with CD racks and trays and a wide choice of opening systems with wooden, lacquered or glass doors with different transparencies and tinted glass.
